

Saule P6 & P50 Umbrellas

outdoor shelters | umbrellas | poolside cabanas

P6 Configurations

P6 Round Uno

The P6 Round Uno is a cantilever umbrella that has a beautiful, modern design. Because the sole umbrella is offset from the base, there is more seating space under the canopy, versus a single pole system. 11.5' diameter.

P6 Square Uno

Beaufurn's P6 Square Uno umbrella is a solo cantilever umbrella on a single support pole. The offset umbrella allows for ample seating and shade beneath the canopy. 8' x 8' | XL 10' x 10'

P6 Round Duo

The P6 Round Duo by Beaufurn features two umbrellas offset from the main support, doubling the amount of space and shade beneath the canopies. (2) 11.5' diameter.

P6 Square Duo

The P6 Square Duo features two cantilever umbrellas on a single support pole, giving shade coverage up to 200 square feet. (2) 8' x 8' | XL (2) 10' x 10'

P6 Square Trio

Our P6 square umbrella combines three cantilever umbrellas on a single pole, giving sunshade coverage of up to 300 square feet. (3) 8' x 8' | XL (3) 10' x 10'

P6 Quattro

Our P6 square umbrella combines four cantilever umbrellas on a single pole, giving sunshade coverage of up to 400 square feet. (4) 8' x 8' | XL (4) 10' x 10'

Saule P6 Umbrellas

Our umbrellas are made from powder-coated aluminum and are available freestanding or mounted. The Patented One Move™ Gas Spring System allows for effortless lifting and lowering. The fabrics are fade resistant and waterproof and are also resistant to mildew and stains. Umbrellas can withstand winds up to 27 MPH.

The Patented One Move™ System

The patented One Move™ System is a pole mechanism that raises or lowers the umbrella in a single movement. Thanks to its gas spring, the umbrella can be lifted effortlessly with basically the tip of a finger, as opposed to standing on a chair to crank up an umbrella.

See the patented One Move™ video on our website shelteroutdoor.com

Saule P50

The Saule P50 umbrella is a single pole umbrella with a beautiful, modern design for commercial applications. Light and easy to use, the P50 is made from anodized aluminum and comes with two base options, a floor plate that can be anchored to the ground, or an aluminum base that can be filled with sand for added stability. The P50's fabric canopy is 100% Olefin that is water and oil resistant, breathable, durable, and rated UPF80 for exceptional sun protection. It comes standard with a protective cover.
