

Saule P6, P8 & P50 Umbrellas

Saule P6 Umbrellas

Our umbrellas are made from powder-coated aluminum and are available freestanding or mounted. The Patented One Move™ Gas Spring System allows for effortless lifting and lowering. The fabrics are fade resistant and waterproof and are also resistant to mildew and stains. Umbrellas can withstand winds up to 27 MPH.

P6 Accessories

Cover

Protects the pole and umbrella in all weather. Comes standard.

LED Lights

White LEDs can be installed in the center of the umbrella. Dimmable.

RGB LED Lights

RGB LEDs can be installed in the center of the umbrella. Dimmable.

Battery Kit

An external battery for white LED lighting. 8-12 hour battery life.

Sockets

Single or double sockets can be mounted onto the pole.

Rain Gutters

Rain gutters with zippers can easily connect several parasols.

Heaters*

Up to 4 heaters can be mounted on one pole.

*Only 1 heater can be mounted per canopy

The Patented One Move™ System

The patented One Move™ System is a pole mechanism that raises or lowers the umbrella in a single movement. Thanks to its gas spring, the umbrella can be lifted effortlessly with basically the tip of a finger, as opposed to standing on a chair to crank up an umbrella.

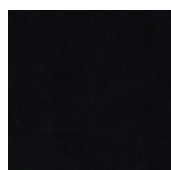

See the patented One Move™ video on our website beaufurn.com

Weight: 290 g/m | **Colorfastness:** 7-8/8

Waterproof: >300mm water column

Saule P8 Umbrellas

The design of the P8 usability was very important. Tables and chairs can remain set in place during opening and closing of the P8 umbrella. Its unique, assisted-gliding mechanism makes opening and closing the umbrella quick and effortless.

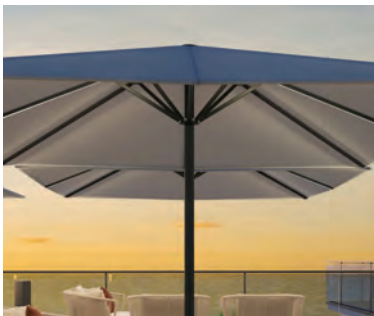

P8 Accessories

Cover

Protects the pole and umbrella in all weather fabric.

Lights

Includes dimmable white LED lights that are integrated in the spoke.

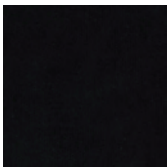

Rain Gutters

Several umbrellas can easily be connected.

White Sand
*95% UV filter

Finishing

The pole and frame are 100% Powder coated aluminium with a textured finishing.

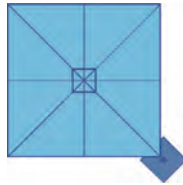

P6 Configurations

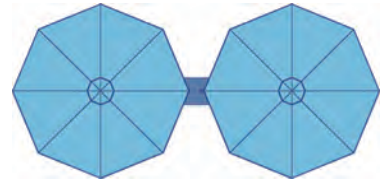

P6 Round Uno

The P6 Round Uno is a cantilever umbrella that has a beautiful, modern design. Because the sole umbrella is offset from the base, there is more seating space under the canopy, versus a single pole system. 11.5' diameter.

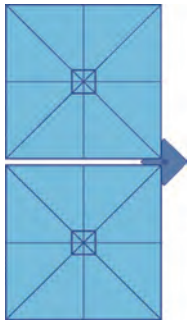

P6 Square Uno

Beaufurn's P6 Square Uno umbrella is a solo cantilever umbrella on a single support pole. The offset umbrella allows for ample seating and shade beneath the canopy. 8' x 8' | XL 10' x 10'

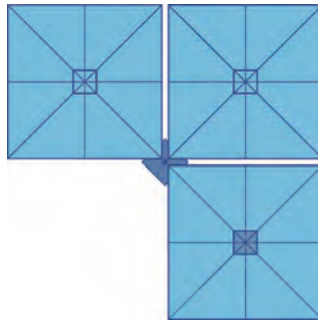

P6 Round Duo

The P6 Round Duo by Beaufurn features two umbrellas offset from the main support, doubling the amount of space and shade beneath the canopies. (2) 11.5' diameter.

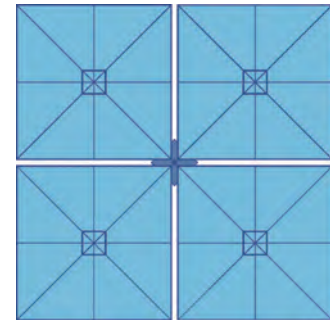

P6 Square Duo

The P6 Square Duo features two cantilever umbrellas on a single support pole, giving shade coverage up to 200 square feet. (2) 8' x 8' | XL (2) 10' x 10'

P6 Square Trio

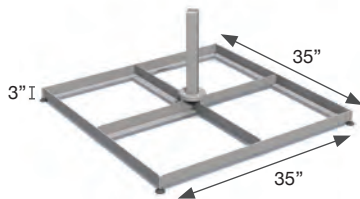

Our P6 square umbrella combines three cantilever umbrellas on a single pole, giving sunshade coverage of up to 300 square feet. (3) 8' x 8' | XL (3) 10' x 10'

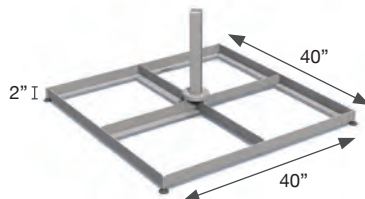

P6 Quattro

Our P6 square umbrella combines four cantilever umbrellas on a single pole, giving sunshade coverage of up to 400 square feet. (4) 8' x 8' | XL (4) 10' x 10'

Cover for Steel Base
35" x 35" | 40" x 40" XL

Ground Anchor
To secure into concrete. Made from stainless steel and aluminum

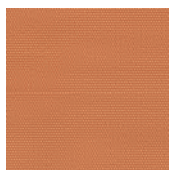

Wall Bracket
For use with square P6 Uno or P6 Duo only

Saule P50

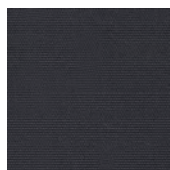

The Saule P50 umbrella is a single pole umbrella with a beautiful, modern design for commercial applications. Light and easy to use, the P50 is made from anodized aluminum and comes with two base options, a floor plate that can be anchored to the ground, or an aluminum base that can be filled with sand for added stability. The P50's fabric canopy is 100% Olefin that is water and oil resistant, breathable, durable, and rated UPF80 for exceptional sun protection. It comes standard with a protective cover.
