

MINIMALIST SHADE SAIL

VELORA

Velora is a shading sail, dedicated to those who love sailing-inspired designs – the winches and the stoppers used for the manual rewinding of both triangular sails and the inclined aluminum pillars with an elliptical section give the structure the dynamic and high-tech feel of a sail boat. Velora has a central roller with a spring-assisted rewinding system, facilitating the manual opening and closure of the sails. The structure can be installed anywhere in a very short time, even without preparing a foundation, thanks to an elegant ballast in white stone grit. Telescopic windshields in glass can be installed on Velora to create a shielded area to enjoy the outdoors.

EVENT
Fuorisalone IN-OUT

LOCATION
City Life District, Milan

YEAR
2018

Velora, a design between art and science, at the edge between remembrance and invention. Velora has the courage of modernity and the prudence and tradition, awakening emotions that arise from the circular process of designing and creating, coming back to the original idea. Velora mixes styles and disciplines, includes similarities without modifying the territory, but melting with it, making it cozy and pleasant.

TYPE

Shade sail
for the garden

MATERIALS

- Aluminum
- Dacron
