

# ECLECTIC

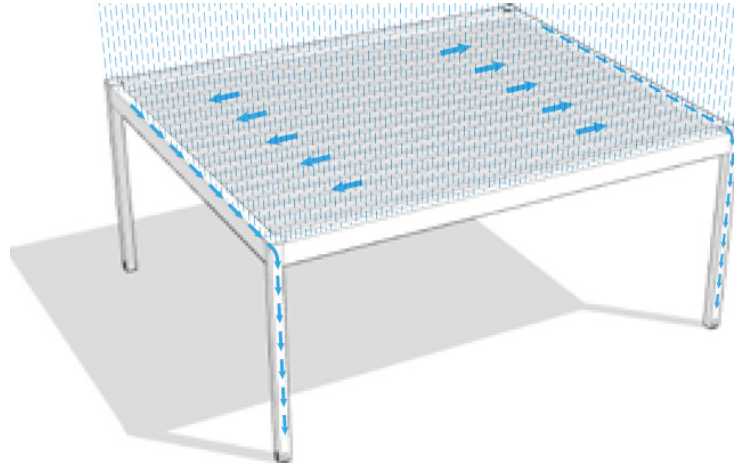

## Standard Eclectic Module

Available in 4 frame color options this structure is a matte finish, powder coated with high-resistance epoxy powder, that improves quality and durability. Equipped with a fixed roof that diverts water to an integrated rain gutter system.

## LED Options

Lighting options are available inside the structure's roof, controlled by a remote with a bonus dimming function.

Featuring White and RGB lights for an unforgettable ambiance day and night.

## Integrated Screens

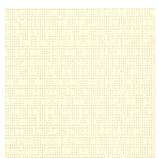

Integrated serge side screens give a seamless look and allow privacy or wind protection where needed. Available in a variety of colors to suit your style and needs. Clear PVC screens are also available. Available in manual or motorized options

## Mounting Options

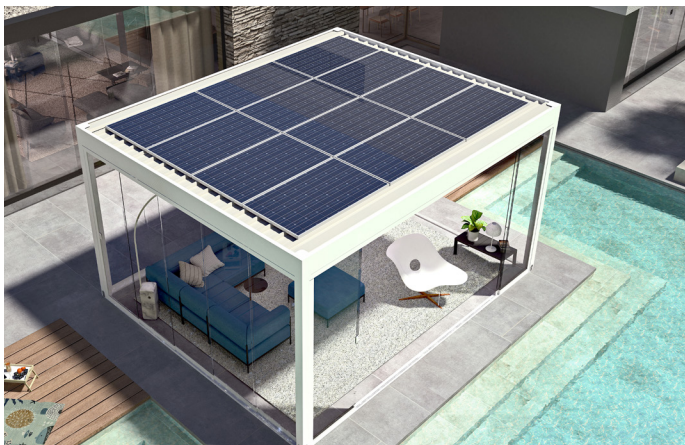

### **Standard Ground Mount**

The standard ground mount is concealed within the post and mounts with either an in-ground mount or bolt-down connection. For higher wind resistance and larger load capacities, ask about our reinforced structure options.

### **Horizon Flooring Accessory**

Horizon flooring replaces the direct anchorage to an existing slab or surface with a weighted ballast option.

## Solar Power

Equipped with the ability to add traditional US Solar Panels to the roof. Perfect for carports with charging power, shelter areas for entertainment, off-the-grid offices, and outdoor relaxation with power capabilities.
