

HORIZON

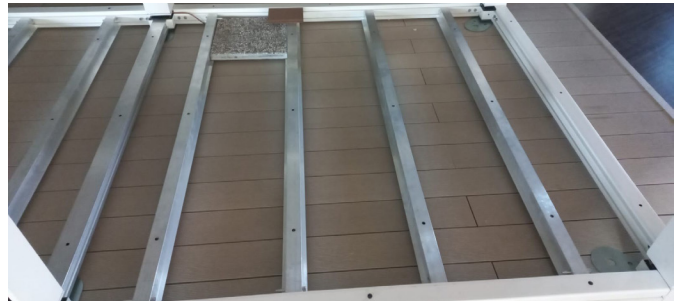

The Standard Unit Horizon

Introducing Horizon an accessory mounting option for four series. This accessories is great for those projects that cant install to the existing buildings foundation. Simply mount one of the four structures to the four supporting corners of the flooring, adjust the purlins for the ballast of your choice and cover with the spruce wood floor or your own flooring. Available in the structures frame colors this accessory is sure to be a perfect fit for your project.

Adjustable Purlins

Adjustable purlins allow for purlins to adjust to the desired ballas tile size.

Ballast under flooring

This series is great for locations where ground mounting is not available. Providing a ballast weighted option that does not need to be mounted to a surface.

Flooring Options

Available in the standard Spruce Wood Oak planks or match your existing flooring with the option to order Horizon with out flooring.

Standard Color Options

Powder Coated Aluminum has a strong UV Resistance, does not contain solvents or VOCS, and resists against scratches, corrosion, and chipping. Available in 5 standard colors Dark Brown, Dove Grey, Special Grey, Silver Anodized and White.

Custom Color Options

Custom RAL Powder Coats are available for both the frame so that you can match existing architecture or personal taste. From matching a sage green, pale blue, or specific gray color there are over 500 color options to choose from.

Horizon Flooring Compatible with the following systems:

The Standard Unit Arcadia

Arcadia is inclusive of a freestanding structure prefabricated to the specified dimensions, including a manual roman shade roof. Horizon Flooring options can be added to this series to allow a weighted base option for projects that can install to the foundation.

The Standard Unit Arcadia K

Arcadia K is inclusive of a freestanding structure prefabricated to the specified dimensions, including a manual roman shade roof, integrated rain gutters. Horizon Flooring options can be added to this series to allow a weighted base option for projects that can not install to the foundation.

The Standard Unit Cabana

Cabana is inclusive of a freestanding structure prefabricated to the specified dimensions, including a manual roman shade roof, and bolt-down type footings concealed inside the vertical post. Horizon Flooring options can be added to this series to allow a weighted base option.

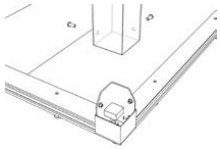

The Standard Unit Eclectic

Eclectic is inclusive of a freestanding structure prefabricated to the specified dimensions, including a fixed roof structure, integrated rain gutters, and bolt-down type footings concealed inside the vertical post. Horizon Flooring options can be added to this series to allow a weighted base option.

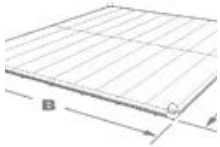

Mounting Options

Horizon Flooring Accessory for structures

Horizon flooring for structures replaces the direct anchorage to an existing slab or surface with a weighted ballast option.

Horizon Flooring Accessory as a flooring

Horizon flooring as its own structure can allow an elevated surface for countless entertainment purposes, create a stage, raised dining or dancefloor that does not have to be anchored to the foundation.

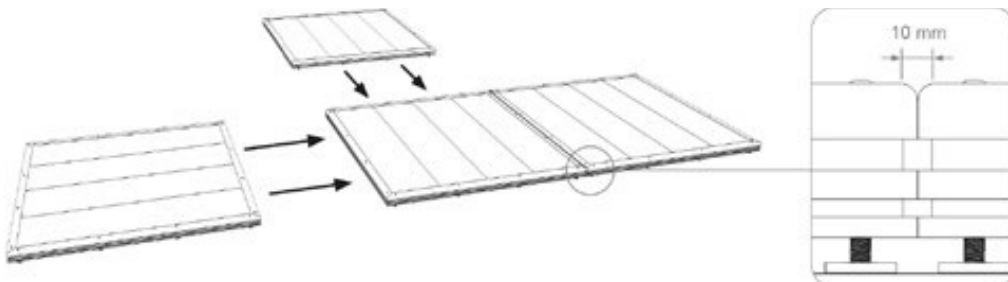

Ballast weighted

All Horizon Flooring options will need to be weighted down with ballast of the customers choice.

Multiple Configuration Options

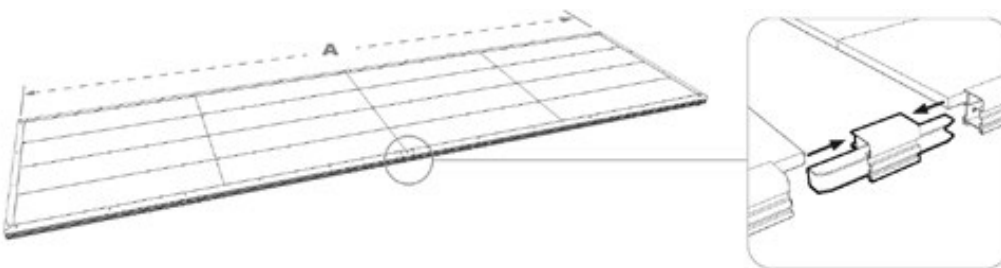

Multiple Configuration Options

Single flooring max size: 19'-8" W X 16'-4" L

Extension through aggregation

The flooring can be extended on both sides, beyond the maximum dimensions shown, by placing one or more modules side by side.
