

# AOLUS PURE UMBRELLA

## Aolus Pure Series

Aolus Pure center pole umbrellas feature a parasol fabric that is eco-friendly with a photocatalytic nanotechnology that, upon contact with sunlight, turns air pollutants into inert salts. One Pure umbrella will have the same anti-pollution effect as planting 2 trees. These umbrellas feature 4 ribs, an air vent, and an easy push-up open system with an open-lock handle.

Air purifying parasol

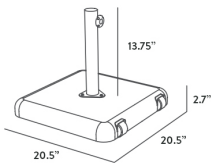

## Available Dimensions

The fabric of the parasol provides high resistance to sunlight, is stain resistant, 100% recyclable, and repels water.

- 7' Square Canopy
